Sib. County Engineer Mielke, RR representative Bruce Pinske and County Comm. Charlie Woehler were present to discuss the proposed railroad improvements, including crossing arms at 3 intersections within city limits. Mielke spoke briefly on the intersection/bridge on 4th Avenue NW (a/k/a County Road 17) and how it would be affected by the proposed improvements. It was noted that Bolton & Menk had been asked to help with the designing of the railroad intersections for Main Street and Adams Street by adding medians, which will narrow down the streets to 24ø (more suitable for gate arms). Cost estimates for the project were reviewed, along with replacement of underground utilities. Mielke commented that the work is proposed for 2011. Pinske believes the project would be closer to 2 years out. Concerns were expressed that the City shouldn't have to pick up certain costs in excess of \$80,000 (more specifically the medians) as they are being mandated by MnDOT and not petitioned for by the City. It was suggested that the costs associated with the medians, etc. should be split with the City covering costs up to the railroad easement area and the County/Railroad covering costs within the easement area. It was also suggested that the length of the medians could be reduced. Considerable discussion was held. Pinske will take the City's questions/concerns to MnDOT and the Railroad and report back.

Discussion was held on transferring \$5,000 from the General Fund to the Water Fund. Adm. Jaunich explained the reason for the transfer was related to an outstanding water bill for the Sibley East Baseball Field. He stated that a donation had been received in January from the Baseball Association, who in turn had intended it to go towards said water bill as it had done in previous years. Adm. Jaunich talked about the acceptance of donations. Attorney Arneson commented that the Baseball Association should just make the donation to the school and the school can then use the money to pay the bill. Mayor Kreft stated that they have advised the School/Baseball Association to do just that from now on. Attorney Arneson commented that years ago an agreement had been drafted between the School District and Baseball Association addressing the issue of utilities.
